

Basic Roadmap For

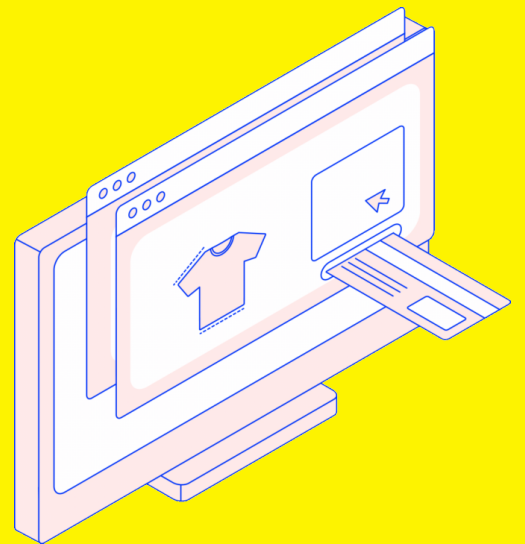

WEB

DEVELOPMENT

@carbine.coder

Here's a step-by-step process:

1. Choose a technology on which you want to work
2. Frontend Development
3. Backend Development
4. Database
5. Version Control System
6. Build Projects

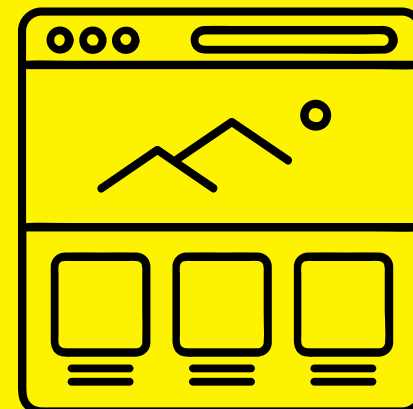

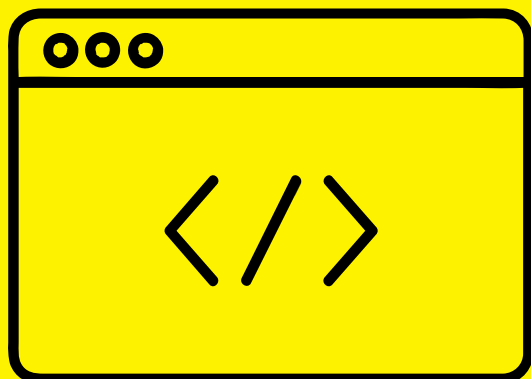

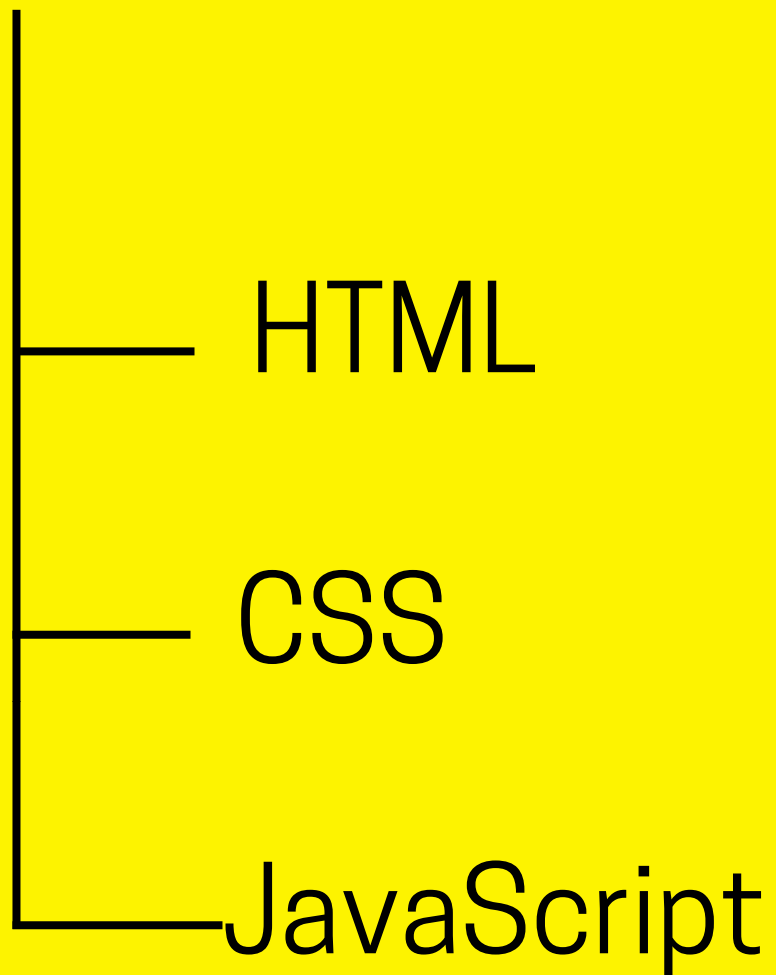

Choose a Technology

Choosing a technology on which you want to work depends on individuals, requirements, and applications.

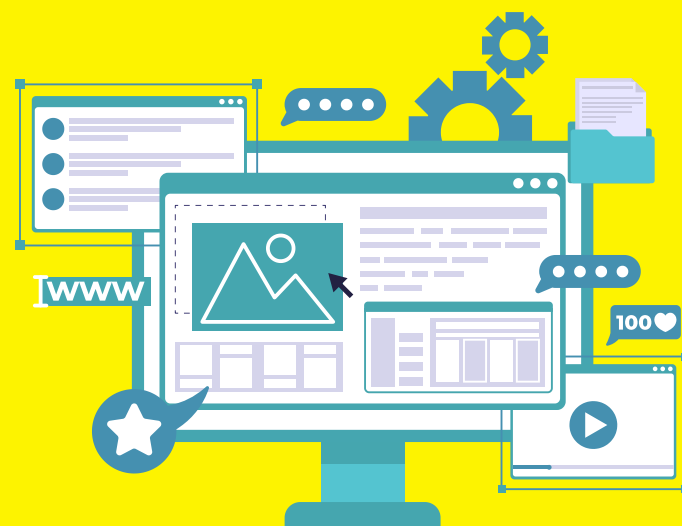

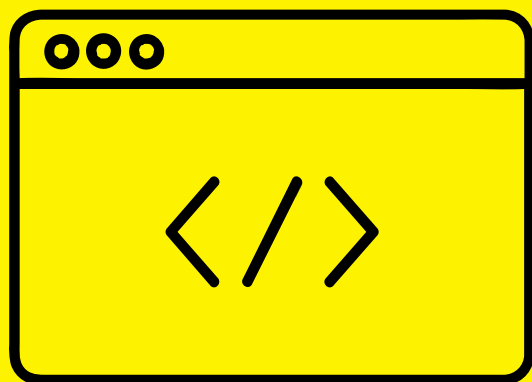

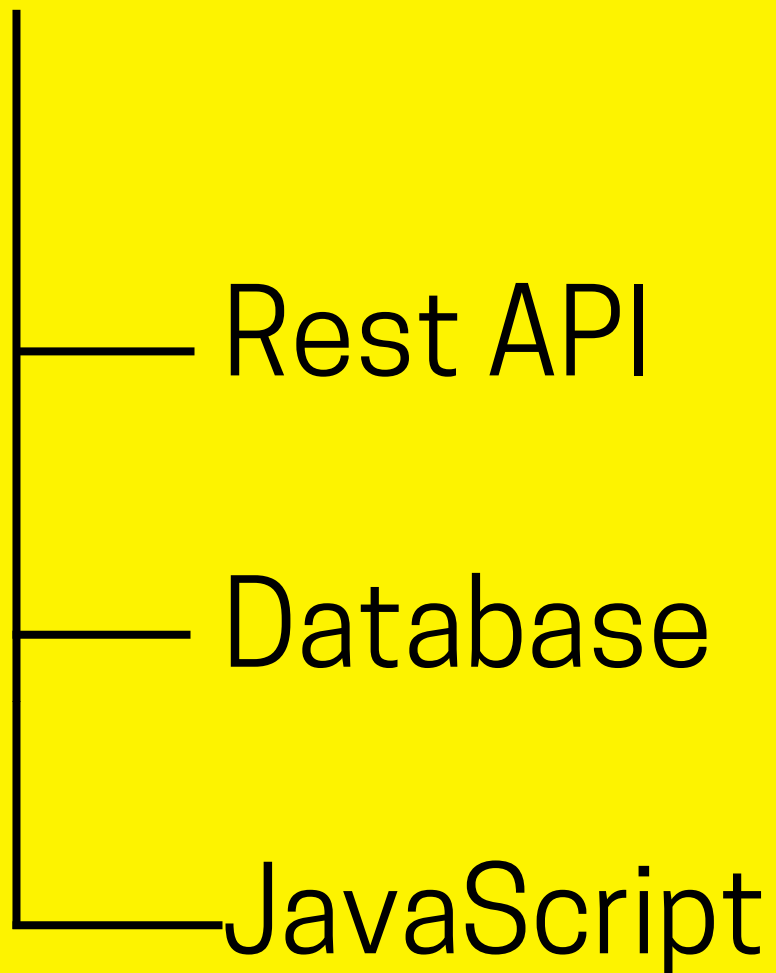

- MERN Stack
- MEAN Stack

Frontend Development

Backend Development

Databases

Most trending databases:

MySQL

NoSQL

MongoDB

VoltDB
